

hello W09C!

(if that's your tute code, you're in the right place!)

how tute/labs work in general

tutes

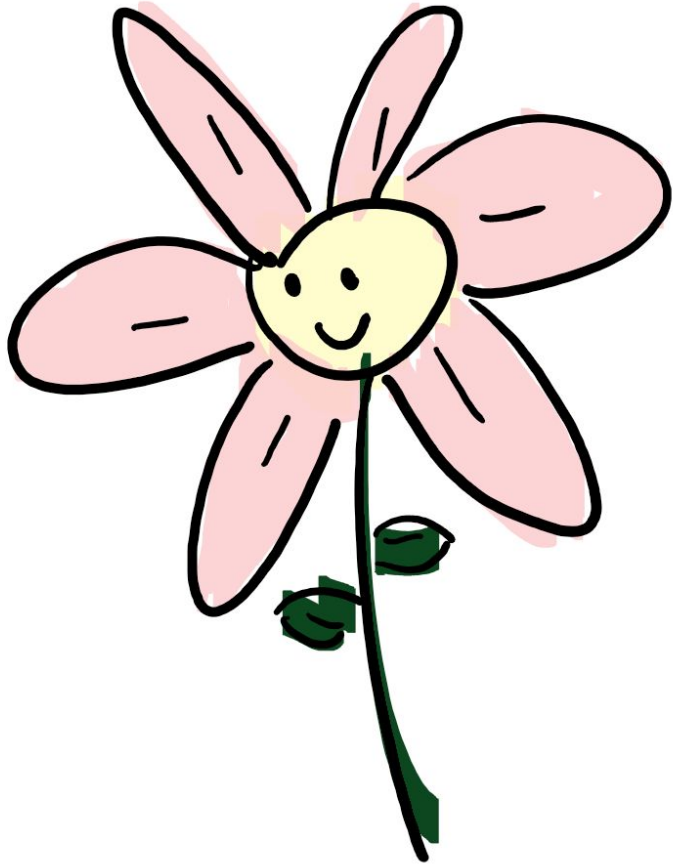

- supplement lectures
- helps with labs & assignments
- for you to ask lots of questions !!!
- will send any code we work on after the tute

labs

- work through lab questions + ask questions
- socialise ?? -- need one brave soul to turn on their camera on first

what's happening today?

- intros + temporary art class
- writing some code together
- a bit of admin
- break out rooms for labs :)

intros + art class

1. introduce yourself

ideas: name, year, degree, city,
hobbies, pets, what you're excited
about this term

2. one instruction to draw this flower

why did we just do
that activity?

questions about course?

- [course homepage](http://cgi.cse.unsw.edu.au/~cs1511/21T3) (cgi.cse.unsw.edu.au/~cs1511/21T3)
- [course forum](#) (discourse, via homepage)
 - programming questions / general course questions go here
- ada.luong@unsw.edu.au (first point of contact)
- cs1511@cse.unsw.edu.au (course email)

operating systems_

H..He..Hel..

Omg first word

Hello World!
